Skills acquired at work

Practicing the profession of lawyer for more than 10 years, I have acquired a flexibility of self-development in continuous professional training, openness to the new and adaptability. At the same time, I have developed an increased capacity for teamwork and coordination, initiative for work, responsibility and last but not least commitment in opinions and decisions taken. Hard work and persuasiveness have often led me to success. I was part of the team that provided representation before the Court of Justice of the European Union in case C-298/16, Ispas.
