Communication skills

During the internship and the last three as a lawyer, as a result of the activities undertaken, by drawing up various documents as part of my caseload and by attending court proceedings to represent the firm`s clients, I had to come up with innovative and unique solutions to complex legal situations and as a result I did not only develop my academic communication skills, but I also perfected my legal skills. Currently looking for any opportunity to further improve my interaction and socializing skills and grow from a professional perspective.
